## ACL Rehab Protocol - Phase 4 (Months 3 - 6)

*Running, Agility & Plyometrics Introduction*

### Objectives

Introduce jogging, jumping, landing mechanics, and basic speed agility drills.

### Straight-line Jogging

- Technique: Flat surface only, start with walk-jog intervals (e.g. 1 min jog, 1 min walk).
- Frequency: 10-15 minutes, 3 times weekly.

### Shuttle Runs & Deceleration

- Technique: Run forward and decelerate slowly. Practice controlled backpedaling.
- Frequency: 5-8 repetitions.

### Double-Leg Box Jumps

- Technique: Jump onto a low box, landing softly in a mini-squat position.
- Frequency: 3 sets of 6 repetitions.
